S.T.E.W.A.R.D.S.

Safety • Trust • Excellence • Wisdom • Accountability
• Respect • Discipline and Diversity • Serving

WHY CHOOSE US?

We offer more than lawn maintenance – we provide an exceptional experience driven by purpose. Our commitment to community care, financial strength, and ranking among the top 150 showcase our dedication to excellence. With services that go beyond ordinary, we prioritize impact and quality for clients who value our ethos of integrity, safety, and service. As a company bonded up to \$50 million, we ensure peace of mind and reliability in every project we undertake.

SAFETY CULTURE

Pro Cutters maintains OSHA-aligned safety protocols, daily job hazard analyses, pre-operation inspections, and equipment lockout procedures. Certified operators manage all high-risk equipment. Safety data is reviewed to reinforce prevention, not reaction.

QUALITY STANDARDS

All services follow documented workflows and supervisory inspections. Quality metrics include turf health, debris removal accuracy, cutting height verification, and environmental compliance.

DIFFERENTIATORS

- Multi-state operational capacity
- GPS-tracked mowing fleet
- Remote-control slope mowers
- \$50M bonding capacity
- Certified erosion control personnel
- Digital quality audit system
- Fully documented safety program
- Workforce scaling for large contracts

PERFORMANCE

Municipalities

Pro Cutters Lawns & Landscapes, Inc. partners with municipalities to provide dependable, professional landscape maintenance for parks, public spaces, government facilities, and rights-of-way. Our team is committed to keeping communities clean, safe, and visually appealing through consistent, high-quality service.

Core Competencies

Annual Miles Maintained	Safety Metrics	Multi-State Experience	Acres Maintained
1,800+	0 Accident Goal	Georgia North Carolina South Carolina	5000+

DEPARTMENT OF TRANSPORTATION

We manage right-of-way maintenance, including vegetation control and beautification, along over 2,000 miles of state and local roads in multiple locations. Additionally, we provide routine maintenance, addressing clean-ups, landscape maintenance, illegal dumping, and pavement repairs. In one of our service areas, we annually remove approximately 800 tons of trash and 60 tons of tires and debris, covering multiple counties. Our commitment extends to services on interstate, state, and county roads ensuring highway safety, sight distance and aesthetics.

GAS & ENERGY PROVIDERS

We specialize in right-of-way maintenance, encompassing vegetation management, for utilities and energy 'providers' extensive infrastructure. Our team also provides routine maintenance, which includes various cleanups and pavement patching.
